How your information is used

In order to vote you must be on the electoral register.

Your local authority needs some personal data (including your name, address, date of birth, PPSN and nationality) to process your application.

This information may be shared with other local authorities where necessary to manage and maintain the electoral register.

To protect the accuracy of the register your identity data can be cross checked with the Department of Social Protection on a limited basis to confirm identity details (name, date of birth, PPSN). While the register is a public document, your PPSN and date of birth will not be published.

This helps to ensure that:

- › only eligible people are registered to vote, and
- › the register is kept up to date, and
- › no person is on the register twice or has incorrect details.

The legal basis for this is set out in the Electoral Reform Act 2022.

Certification
